Inventor: HANSEN, Peter, et al. New York, New York  
29 March 2005

Serial No.: 10/779,486

Docket No.: 1100-074US

Filed: February 13, 2004

Title: SYSTEM FOR PROVIDING STEP OUT  
COMMISSIONS AND COMPENSATION FOR  
RESEARCH BROKERS

Art Unit:

-----X

Attn: Doshie Day  
OFFICE OF INITIAL PATENT EXAMINATION  
COMMISSIONER FOR PATENTS  
P.O. BOX 1450  
ALEXANDRIA, VIRGINIA 22313-1450

**PETITION TO WITHDRAW HOLDING OF ABANDONMENT**

This petition is filed in response to the Notice of Abandonment under 37 CFR 1.53, mailed February 9, 2005. The Notice of Abandonment states that the above captioned application is abandoned for failure to reply to the Notice to File Corrected Application Papers dated May 13, 2004. Upon request, our firm, as attorneys of record in this case (and the addressees for all correspondence),

obtained on March 28, 2005 a facsimile copy of the Notice to File Corrected Application Papers from the Office of Initial Patent Examination.

On information and belief, we submit that the Notice to File Corrected Application Papers, mailed May 13, 2005, was never received by our firm, and therefore kindly request that the Notice to File Corrected Application Papers be reissued and re-mailed to us, setting a new deadline for responding to same.

Our firm employs a very rigorous docketing system in handling all correspondence received from the USPTO. All incoming correspondence is reviewed by two members of staff, including a highly competent patent clerk with over twenty years' experience in docketing patent prosecution matters. All documents with response deadlines are entered into an electronic docketing system database by our patent clerk immediately upon receipt. Our electronic docket system is automatically updated on a daily basis to remind all attorneys and support staff of upcoming deadlines. Each entry into the electronic database is corroborated by a second member of staff.

In addition to this highly accurate electronic database and recall system, our firm also utilizes a physical docket. When a document requiring a response is received from the USPTO, the information regarding the response date is initially docketed in the electronic database by our patent clerk, as described above. The file is then placed into a separate file storage area which is specifically designated

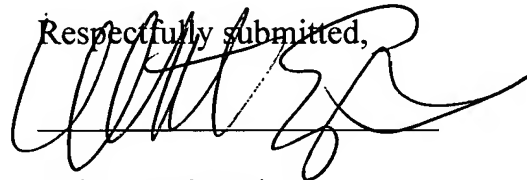

for cases in which a response is due. This physical docket is divided into monthly sections, and the file is placed into the appropriate section depending on when the response is due. This physical docket system is reviewed daily by the undersigned, and operates as a highly effective second level of security, or safety net, when documents requiring a response are received in any particular case. It is therefore believed that the robustness of our firm's docketing system, with its multiple levels of security, makes it very unlikely that the Notification to File Corrected Application Papers could have been received by us but misfiled or somehow docketed incorrectly.

In further support of the petition, submitted herewith is an extract of our electronic docket records for the above captioned application (Appendix I) indicating that information concerning this application has been duly entered into our electronic docket system as it was received in our office, including the application number (upon receipt of the return receipt postcard at the time of filing the application). Kindly note that no entry has been made in the appropriate section for a Notice to File Corrected Application Papers, namely "Notice of Missing Parts Due Date". Also enclosed are Appendices II, III and IV as examples of other cases in which a Notice to File Corrected Application Papers (or Missing Parts) have been received and duly entered into our docket system.

Further, a complete search of our office and thorough search of all of the file jackets for other patent applications we are handling for this applicant has been conducted. However, the Notice to File Corrected Application Papers in question has not been located. It is therefore believed, on the basis of our search and on the review of our docketing system, that it is very unlikely that the Notification to File Corrected Application Papers in question could have been mislaid in our office.

In light of the foregoing, it is respectfully requested that the Notice of Abandonment dated February 9, 2005 be withdrawn, and that the Notice to File Corrected Application Papers be reissued and re-mailed to us, setting a new deadline for responding to same.

Respectfully submitted,

A handwritten signature in black ink, appearing to be 'R. Epstein', written over a horizontal line.
